

PEDIATRIC ACNE VULGARIS STUDY (AGES 9-11)

FLY HIGH AGAINST ACNE

Is your child suffering from pediatric acne?

Consider participation in the Break Away Clinical Research Study. It is evaluating the investigational use of a topical study medication for children with symptoms of acne vulgaris.

To qualify, your child must meet these criteria:

- Be between 9 and 11 years old
- Be in good general health

Study participants will receive study-related exams, lab tests and investigational study medication at no cost.

Child must have:

20-100 pimples

on his or her face

Compensation for time and travel may be available.
